EXP.NO-4	Form Design for a Business Application(Basic Fields)

AIM:

To design and build a **Patient Appointment Booking Form** in Zoho Creator using all 13 Basic Fields, with appropriate validations and a report for managing appointment requests.

INTRODUCTION:

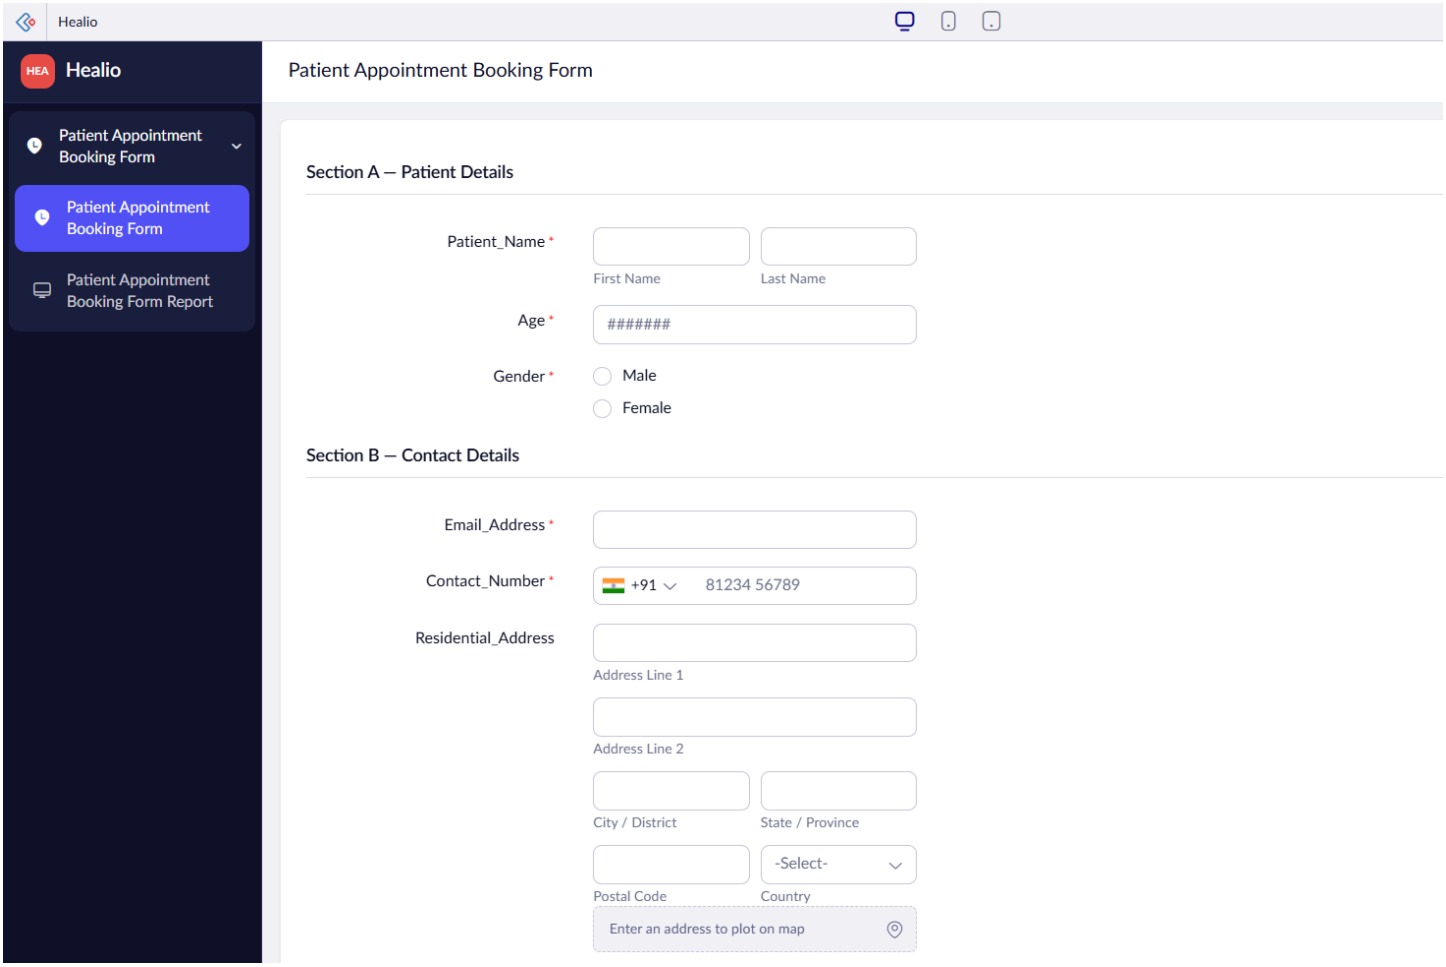

The application **Healio** is designed to help patients submit appointment requests in a structured manner. The form captures patient details, contact information, medical details, preferred appointment schedule, and treatment consent. Mandatory fields and validation rules are applied to improve the accuracy and completeness of the collected information.

Patient Appointment Booking System:

Field Name	Field Type	Purpose of Collected Data	Validation	Mandatory
Patient_Name	Name	Collects the patient's full name using First Name and Last Name sub-fields.	Accepts alphabetic input; first and last names captured separately.	Yes
Age	Number	Collects the patient's age.	Value restricted to 3 digits.	Yes
Gender	Radio	Collects the patient's gender.	Single selection only (Male/Female/Other).	Yes
Email_Address	Email	Collects the patient's email address for appointment confirmation.	Built-in email format validation.	Yes
Contact_Number	Phone	Collects the patient's mobile number for communication	Indian phone number format with +91 country code.	Yes
Residential_Address	Address	Collects the patient's complete residential address including city, state, and pincode.	Uses structured address fields.	No
Referred_By	Single Line	Collects the referring doctor's name or source of referral.	Accepts short text input.	No
Department	Drop Down	Allows the patient to choose the department for consultation.	Single selection from predefined department list.	Yes
Existing_Conditions	Multi Select	Collects information about existing medical conditions or allergies.	Multiple predefined options can be selected.	No
Symptoms_Description	Multi Line	Collects a detailed description of the patient's symptoms or reason for the visit.	Accepts multi-line text input.	No
Preferred_A		Collects the patient's		

ppointment _Date	Date	preferred consultation date.	Past dates are not allowed	Yes
Preferred_A ppointment _Time	Time	Collects the patient's preferred consultation time.	Uses built-in time picker.	No
Consent_ For_ Treatment	Checkbox	Records the patient's consent for examination and treatment.	Must be checked before form submission.	Yes
